Glassworkers' Grievances.

A glassworker employed at the Buckeye glass works desired the INTELLIGENCER to state that the management wishes them to make paste mould ware at a reduction of 25 per cent, which is lower than is paid by any other factory in this country, and that they want the glassworkers to work unlimited moves with the iron moulds, and this is unreasonable and unfair. An official of the American Flint Glassworkers' Union told the management that if any preference was given, the old employees should have it, and the above proposition was made, which could not be accepted, it being lower than paid in any other glass factory. The glassworkers say the Buckeye refused to pay the list price adopted by the American Flint Glassworkers' Union convention at Muncie in the summer of 1892, and the glassworkers who worked at the Buckeye have been receiving \$5 per week from the union ever since. They claim that all of the union factories running are paying the list scale.

The employees of the United States company are still out on a strike against the unlimited turn system.

TOBY VANCE, a well known character about town for forty years, is lying ill of consumption in the hospital at the county infirmary. His death is said to be a question of a short time.

"THE WITCH OF ENDOR" closed its engagement at the Opera House Saturday to two fair houses. It was a success, and will net the A. O. U. W. a comfortable sum, but not what was expected of it.

SATURDAY night Silver Wave Castle of Knights of the Mystic Chain gave a fine musical and dramatic entertainment at Westwood's hall. It was a success in every respect, and reflected much credit on the participants.

SELDOM has such a rush of holiday shoppers been on the street so long in advance of Christmas as there was Saturday night. All the stores were well patronized. It did not look much as if hard times prevailed in the community to see the people all carrying big bundles home.

THE ROMANTIC STORY.

Of the Orange Grove Which Judge J. S. Cochran Bought.

Judge J. S. Cochran says he does not intend to surrender his citizenship in Ohio nor locate permanently in Florida until he shall discover that that climate is better for his health than this.

He will be compelled to go there for a time to look after his orange grove. He has purchased the famous "Dummitt Grove," which fronts on Indian river and the Atlantic ocean. Its whole history, which is too lengthy to give here, is a chapter of romance. It was started in the forties and from it originated the celebrated "Indian River Orange" of world-wide reputation.

In the seventeenth century Dr. Turnbull prevailed upon a lot of Minorcans to accompany him across the ocean to his grant of hammock land, extending from about forty miles below St. Augustine nearly to Titusville, promising them fifty acres of land each. He subsequently enslaved them and employed them in raising sugar corn and indigo on this hammock. One or two of them escaped and laid their complaint before the Spanish ruler at St. Augustine, who brought them to that place and got after Dr. Turnbull. Their descendants are still residing in and about St. Augustine. They seem to be a dusky colored, peculiar, though kindly people. While exploring this forest or hammock one will frequently come across the remaining coquina walls of old buildings, sugar refineries, etc., erected through the unrequited toil of these enslaved Minorcans.

In the forties Colonel Dummitt found in the forest growing near one of these decayed stone buildings a sweet orange. From this tree he budded into the wild, sour orange trees which he found growing on his land, and this became the Dummitt grove, now so famous. On this place he raised sugar cane, marketing it by water to New Orleans. The grove subsequently became the property of the Duke De Castro Lucia, now deceased, who greatly improved it by buildings, water pipes and tramways conducted through the grove, docks, boat houses, etc., and by many tropical fruits, flowers and shrubs.

The place now produces oranges, lemons, pineapples and vegetables mainly. The Dummitt orange has a special quotation of its own in the market and sells for the highest prices.

Save the Children By Purifying their Blood Hood's Sarsaparilla Makes Pure Blood, Cures Scrofula, Etc.

"My experience with Hood's Sarsaparilla has been very effective. My little girl, five years old, had for four years a bad skin disease. Her arms and limbs would break out in a mass of sores, discharging yellow matter. She would scratch the eruptions as though it gave relief and tear open the sores.

Two Bottles of Hood's Sarsaparilla caused the eruptions to heal and the sores peeled off, after which the skin became soft and smooth. As a family medicine it is the best I have ever used."
